NSRF000149 00000184 Department of Health Approved - Converted Nil Response
NSRF000149 00000529 Department of Premier and Cabinet (VIC) Approved - Converted Supported
This project supports the Victorian Government policy of co-ordination of regional services
The project will create employment as the facility does not exist at this point in time.
The ME RDA Regional Plan 2013-2016 states that the 'region will need to accommodate additional people within urban areas, focussing on activity centres and employment hubs' (page 5).
The Belgrave Health Hub will centralise the delivery of services, and thereby act as a small employment hub.
The ME region has an ageing population and a related growing demand for medical and aged care facilities such as the Belgrave Health Hub
$1,000,000 existing Victorian Government Funding
