

Dear Sir/Madam

I would like to express my direct concern with the access I have to public transport in my area

As I am legally blind I find to access my local bus I only have the option to board the bus in one direction of its route

As my bus route goes directly up and down a major highway I do not have the ability of crossing the highway to access the bus in the other direction, therefore making me stay on the bus and do a full route before getting off.

I would like to see some changes to the way routes are implemented and assure that people with disabilities are able to access the bus and any stop the wish and on either side of the road. I am sure the bus would be able to weave in and out of side streets to enable people safe access transport

regards

Sharon Marriott
