

SEVS does not apply to full volume new vehicles, unrestricted used L Group vehicles (e.g. motorcycles) or trailers

Instructions

Applicants are to provide information to assist in determining eligibility. The determination of eligibility is subject to the information supplied being verified.

- 1) Complete all questions in Section 1 and move to question 8 in Section 2.
- 2) Not all questions in Section 2 need to be answered; move to the next question as directed based on each response.
- 3) Only complete Section 3 if you are directed to it from Section 2.
- 4) In Section 4 list all the attachments and information that supports your application.
- 5) Sign and date the form in Section 5 then submit it along with all attachments to SEVS@infrastructure.gov.au

VEHICLE MODEL DETAILS

1. Make

2. Model

3. Typical VIN

4. Manufacturer’s model code or marketing designation

5. Build date range (used vehicles only)

From / to /
Month Year Month Year

6. Country of origin

7. Vehicle category, as originally manufactured

(refer to Australian Design Rule–Definitions & Vehicle Categories)

Section 2 –Eligibility for entry on the SEVs Register | Motor Vehicle Standards Regulations 1989, Regulation 24

8. Is the vehicle Make currently supplied to the Australian market in the same vehicle category in full volume?

Yes Go to question 9

No Attach documentary evidence. Vehicles are eligible subject to verification. Go to Section 4.

9. Are the vehicles to be supplied used, i.e. have they been used in transport outside Australia?

Yes Go to question 10

No Attach documentary evidence. Go to question 12

10. Has the Make-Model been supplied to any market in the world at least 18 months before the date of this application?

Yes Which country?
 Attach documentary evidence. Go to question 12

No Go to question 11

11. Has the original manufacturer advised the Administrator that it does not plan to supply the vehicle Model new under a full volume approval in Australia?

Yes Go to question 12

No Vehicle is not eligible for the SEVs Register.
Go to Section 3, question 20

12. Is this vehicle intended for first supply to the market in Australia as a ‘campervan’ (see Circular 0-4-12) and is either a Model not supplied in full volume in Australia, or a variant not supplied in full volume in Australia of a Model that is supplied in full volume in Australia?

Yes Go to question 16

No Go to question 13

13. Has the vehicle Model been supplied in full volume to the Australian market?

Yes Go to question 14

No Go to question 16

Note: Equivalent vehicles marketed under different names (badge engineering) are considered to be the same Model for eligibility purposes.

14. Does the Make-Model have a build date at least one year after the build date of the last vehicle supplied to the Australian market in full volume?

Yes Attach documentary evidence. Go to question 16

No Go to question 15

15. Has the Identification Plate Approval (IPA) holder advised the Administrator it agrees for the one-year period to be waived?

Yes Go to question 16

No Vehicle is not eligible for the SEVs Register.
Go to Section 3, question 21

16. Does the vehicle belong to one of the following categories: MA, MB, MC, MD1, MD2 or NA?

Yes Go to question 17

No Vehicle is eligible subject to verification.
Go to Section 4

17. Is the vehicle a “single cab” (i.e. single row of seats) 4WD with an open work tray?

Yes Attach photos, vehicle is eligible subject to verification. Go to Section 4

No Go to question 18

18. Vehicle will be required to meet at least 2 of the 4 specialist and enthusiast vehicle criteria:

18.1. Appearance

18.2. Unusual design features

18.3. Performance

18.4. Featured in specialist motoring magazines in ‘as manufactured’ condition
(Please note that online vehicle review articles are not considered as specialist publications)

18.5. Does the vehicle meet at least 2 of the 4 specialist and enthusiast vehicle criteria?

Yes Provide evidence. Go to question 19 No Vehicle is not eligible for the SEVs Register.
Go to Section 3

19. Further information which supports the claim

Section 3 –Eligibility under interim arrangements | refer to the [Guidance relating to Specialist & Enthusiast Vehicles](#)

20. Has the vehicle Model been supplied in full volume to the Australian market?

Yes Go to question 21 No Go to question 26

21. Provide details of all Variants covered by this application

If you are applying for a group of Variants that can be easily described and differentiated from other vehicles in the model range, describe the group below. Otherwise, provide details of the individual Variants on page 6.

- Variants within a model range are distinguished by significant differences in design characteristics (not necessarily by different variant names designated by the manufacturer). More information is given in the Guidance.
- An application can cover one Variant or a group of Variants within a model range if all the Variants in the group are eligible under the same criterion e.g. if all V8 Variants of a model are not provided in full volume and meet the performance criterion.

22. Do the Variants have design characteristics that are significantly different from full-volume vehicles of the Model?

Yes Describe below how each of the Variants is significantly different from vehicles of the Model supplied in full volume: No **NOT ELIGIBLE**

23. Have any of the Variants been supplied in full volume to the Australian market?

Yes Go to question 24 No Go to question 26

24. Are you the IPA holder or has the IPA holder authorised you, in writing, to make this application?

Yes Attach the authorisation. Go to question 26 No Go to question 25

25. Does the build date range correlate to a period when the Variant/s were not genuinely available to Australian consumers?

Yes Go to question 26

No **NOT ELIGIBLE**

26. Have at least 3 months passed since the Model/Variants (as applicable) were first made available to consumers in any other market in the world?

Yes Which country?

No **NOT ELIGIBLE**

Attach documentary evidence. Go to question 27

27. Does the vehicle satisfy one of the six specialist and enthusiast vehicle eligibility criteria?

Yes Provide details below and attach supporting information.

No **NOT ELIGIBLE**

27.1. Performance – provide the power output, tare mass and power-to-weight ratio (kilowatts per tonne) for each Variant

27.2. Environmental – explain how the Model/Variants meet or exceed current vehicle emissions standards and satisfy the alternative propulsion or engine and dimensional requirements, and attach supporting information

27.3. Mobility – demonstrate the Variant/s were either originally manufactured with assistive features or were modified to include those features, with the sponsorship/support of the original manufacturer, before first provision to market

27.4. Left-hand drive – demonstrate the Model/Variants were originally manufactured LHD and were not available in RHD in any market

27.5. Campervans and motorhomes – demonstrate the Model/Variants were either originally manufactured as campervans or motorhomes or are of an appropriate body shape and GVM (as applicable) for conversion into compliant campervans or motorhomes

27.6. Rarity – demonstrate that one of the three applies:

- Less than 3,000 vehicles of the make and vehicle category produced per year*
- Less than 1,000 vehicles of the model produced per year*
- Less than 100 vehicles of the variant of model produced per year*

*Averaged over the number of years it is, or was, available as a new vehicle in any market in the world.

Section 4 – Attachments

List below all the attachments used to support this application for eligibility (e.g.: internet sites, brochures, magazine or newspaper extracts, photographs etc). If the claim for eligibility is supported by a statement from the manufacturer or importer that an equivalent vehicle has not been marketed in Australia, a certified true copy should be supplied.

**Applicants must supply sufficient information to support their claims.
Applications with insufficient information will be rejected.**

Attachment Reference	Details	No. of Pages

Section 5 – Declaration

I declare the information provided is true and correct and agree to the information being provided to other government agencies.

This form must be signed by the Applicant ONLY.

Variant Details

	Variant 1	Variant 2	Variant 3	Variant 4
Motive power – internal combustion engine / electric / plug-in hybrid / non-plug-in hybrid:				
For vehicles with internal combustion engines (including hybrids)				
– Configuration e.g. inline 4 cylinder, V8:				
– Induction – naturally aspirated (NA) / turbocharged (TC) / supercharged (SC) / turbo- and supercharged (TS):				
– Fuel type e.g. petrol, diesel, LPG: (does not extend to fuel grade e.g. premium unleaded)				
– Engine capacity (cc):				
For electric-only vehicles, driving range on a single charge (km):				
– Testing regime used to determine driving range e.g. WLTP, NEDC:				
Maximum power (kW):				
Transmission type – manual [driver-actuated clutch] (MT) / automatic (AT) / continuously variable (CVT):				
Number of gears:				
Number & position of powered axles e.g. FWD, RWD, AWD/4WD, 6x4:				
Number of steered axles:				
Body shape (e.g. sedan, station wagon, hatchback, coupé, convertible, ute, van, cab chassis, bus, motorhome, prime mover, rigid truck etc):				
Number of side doors:				
Maximum number of suitable seating positions (i.e. that could be used when the vehicle was used on Australian roads; so for example non-compliant folding seats would not qualify):				

Any other relevant design characteristics (e.g. features to assist a person with a disability):

Variant 1	Variant 2	Variant 3	Variant 4
